

## Spring protein pea

Excellent standability

- Excellent standability
- Very high yields
- Very easy to combine
- Good disease resistance

### Good disease resistance

PINOCHIO should be used where high yields are required from tall plants with good standability and disease resistance.

### Very high yields

PINOCHIO offers consistent high yields. In official Danish trials in 2001, PINOCHIO out yielded NITOUCHE by 3% to confirm it's position as one of the top varieties.

### Award winning performance

In PGRO trials in the UK, PINOCHIO exhibited excellent standability, to finishing first in the trial. This was coupled with very good disease resistance.

### Style

PINOCHIO appears as a relatively tall, erect variety appx. 30-35 cm high at harvest, ensuring easy combining, less soil ingress, and reduced waste.
