

Au-Triumph

festuca arundinacea

Tall fescue

Rating

Quick Facts

AU TRIUMPH is a very early flowering, erect growing, endophyte-free, non-winter dormant (Mediterranean), long lived perennial bunchgrass. It exhibits excellent seedling vigor and is deep rooted. It tolerates soil acidity, high bulk density soils, poor drainage and is relatively tolerant of drought. AU Triumph is one of the largest selling non-winter dormant, endophyte-free forage tall fescues on the market. It has been tested and utilized extensively in North America, Australia, New Zealand, South Africa and South America.

- Very high yields
- Very digestible
- Drought tolerant
- Very winterhardy
